

# Bark n Biscuit Website Notes

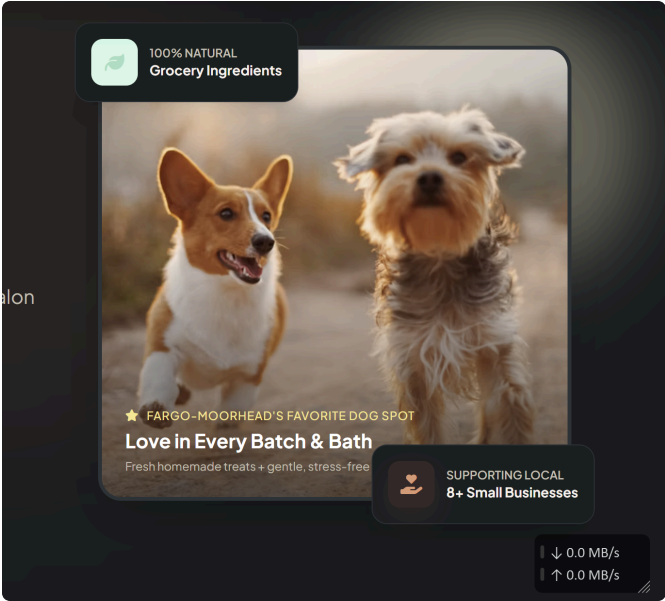

1. Color contrast is not ideal on the navigation bar

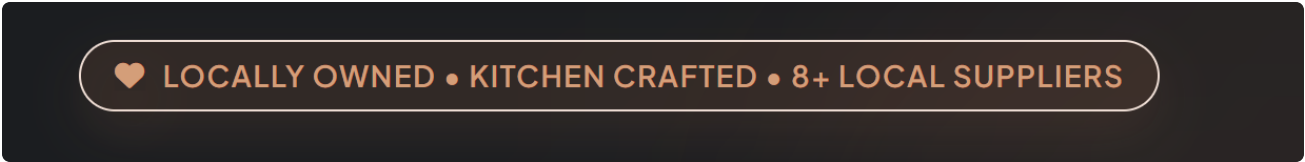

2. Excessive AND inconsistent use of icons across CTA buttons

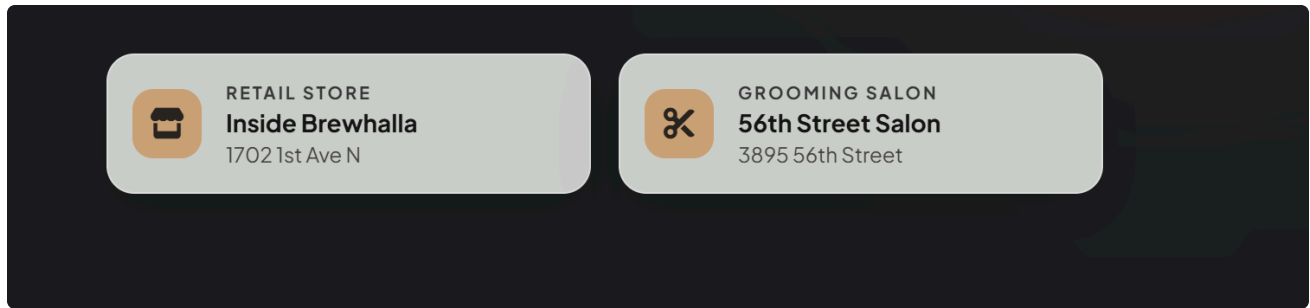

3. Unnecessary use of flashy tags that make the website look AI generated

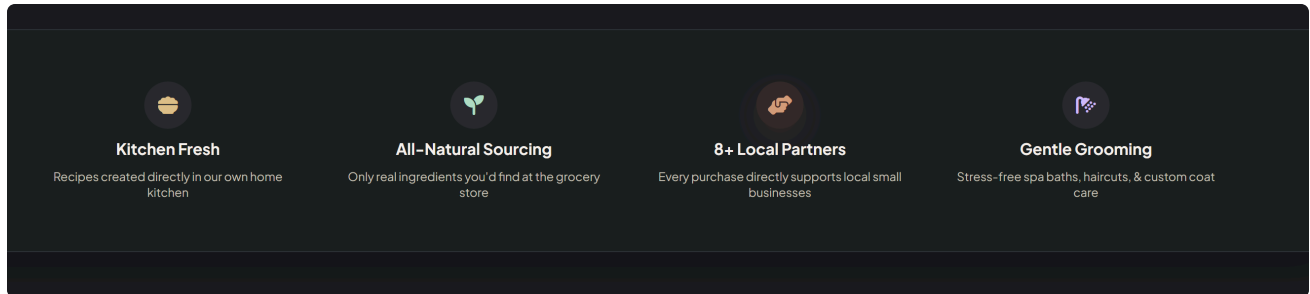

4. The rules of 3 is a dead giveaway, and the '.' separator and again a AI tag

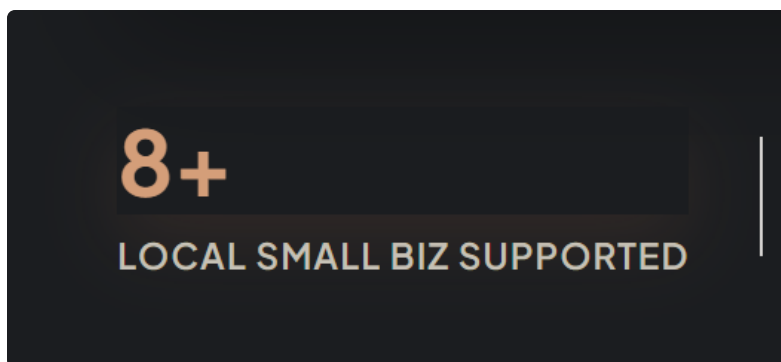

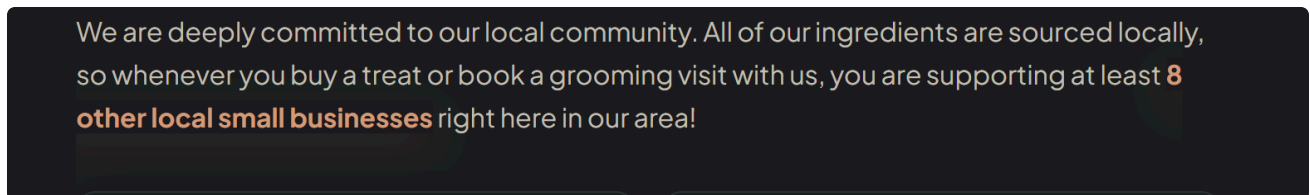

5. improper use of cards for addresses

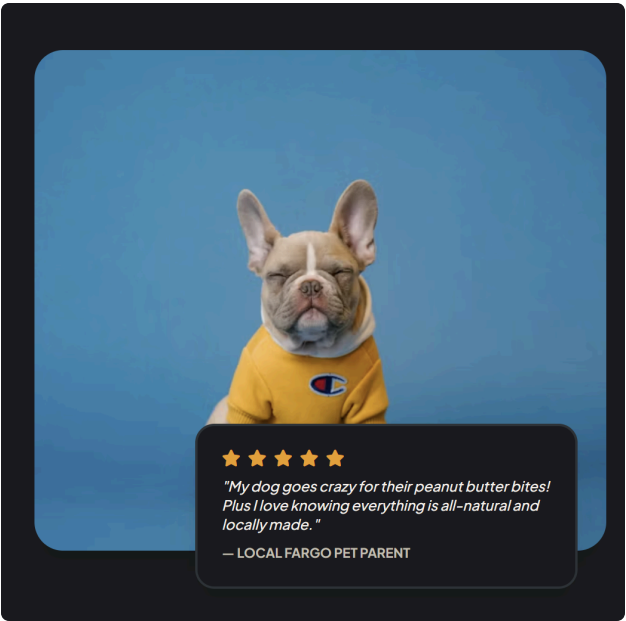

6. While this is somewhat ok, it needs to be redesigned and rephrased to make it less looking like AI. Also inconsistency with icon DESIGN

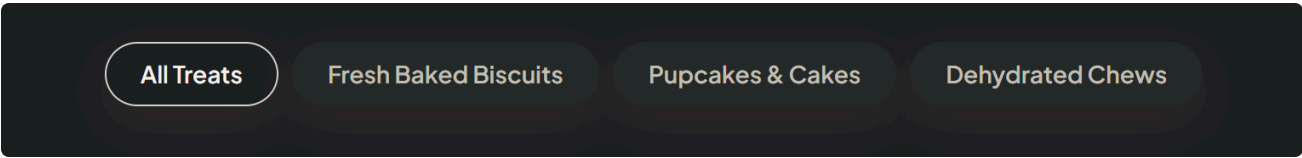

7. Broken gradients accross the whole website

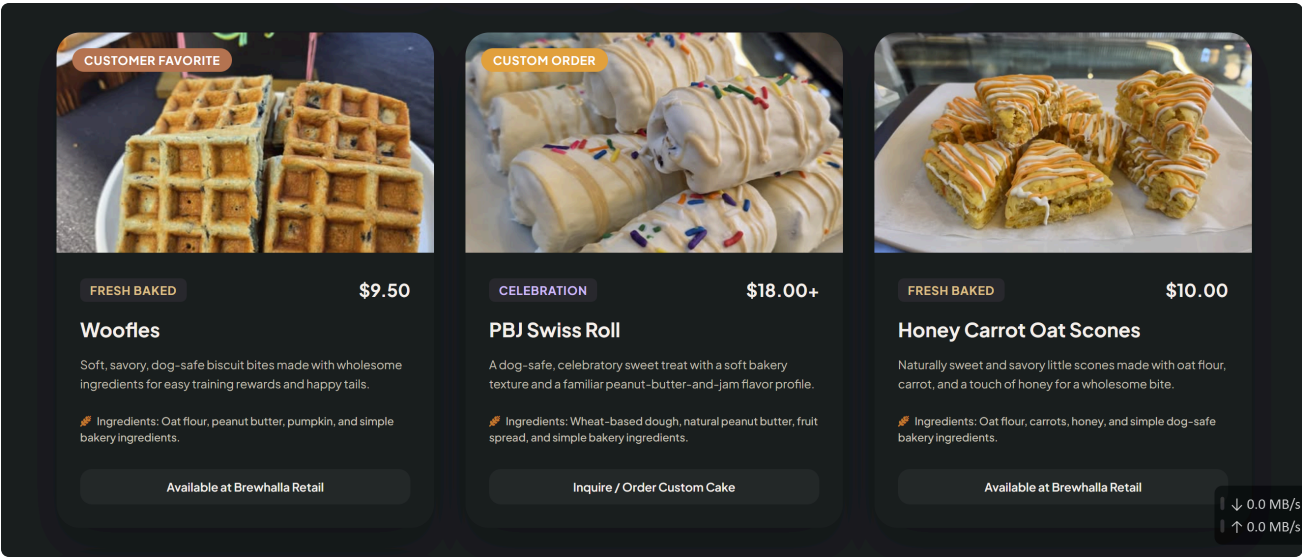

8. I know this won't be the case for production website, but fake review is an easy lawsuitm make sure it is the EXACT phrasing of the real testimonial

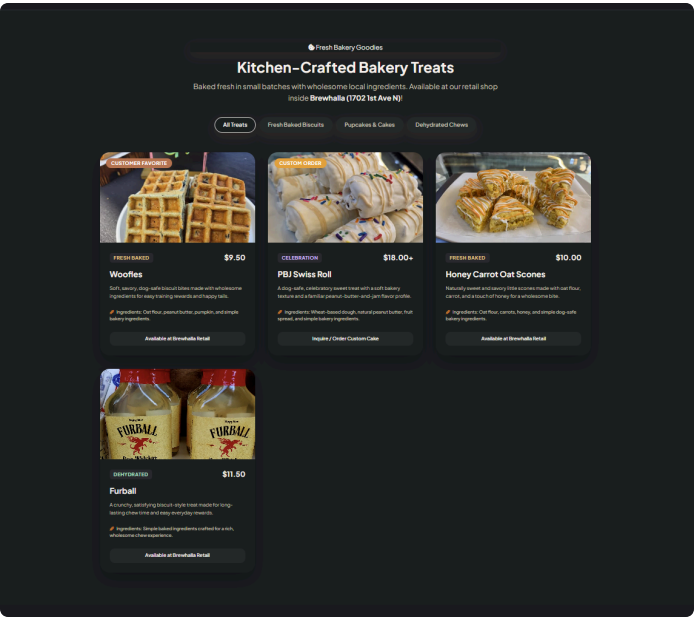

9. Category tags non functinoal

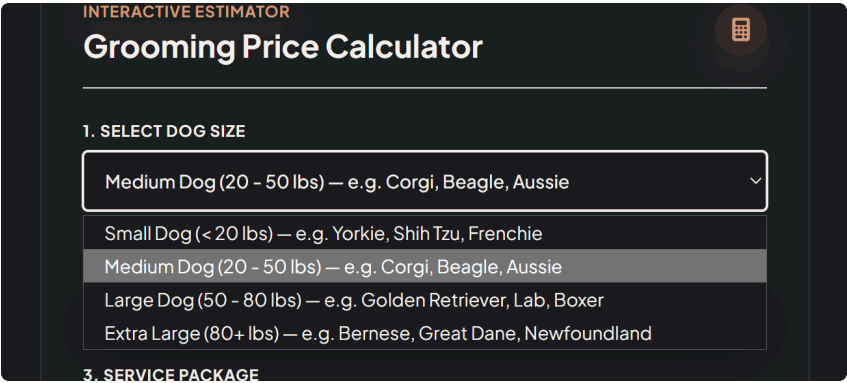

10. excessive use of pills and tags and always excessive use of different colors without respecting the brands color palette (also be wary of hardcoded prices)

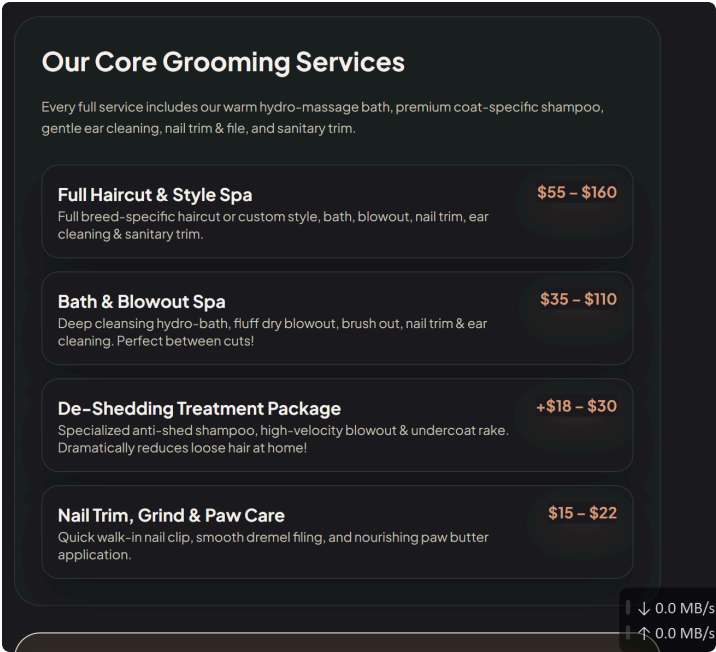

11. dynamic layout grid is needed for items

12. generic dropdowns kill the mood and also it needs dynamic padding for both the indicator

and the entries

13. a card within a card is not neccessary unless there is a design choice behind it

14. This can be at the bottom of the page

## Grooming Policies & Health Safety

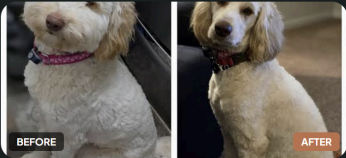

- **Vaccinations Required:** All dogs must be up to date on Rabies, Distemper, and Bordetella for the safety of all pets.
- **Stress-Free Handling:** We take our time with anxious or senior dogs to ensure a calm, positive experience.
- **Drop-off & Pick-up:** Please arrive promptly for your scheduled appointment time.

15. broken gradients, non-functional category pills, and before and after photos can't have fit, they need to be one size and fit in a static card so everything shows as intended

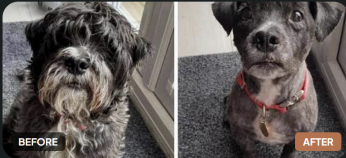

## Grooming Transformations

Take a look at some of our fresh, happy salon graduates! From shaggy teddy bear cuts to de-shedding makeovers.

[All Transformations](#)[Doodles & Teddy Bear Cuts](#)[De-Shedding Makeovers](#)[Bath & Blowouts](#)

**Old English Sheepdog**  
Full fluff restoration + paw butter spa

**Terrier Mix**  
Hydro-bath spa, brush-out & finishing trim

**Shih Tzu**  
De-shedding & shine treatment

16. The footer needs to be pinned to the bottom of the page at all times and expanded when you read the end of the page

17. Need privacy statements and terms of use and all that legal crap or its easy lawsuits

18. Everything is one page, they're jsut using sections. it was allowed for nico and nacho because they paid the minimum, but since these new guys are paying 2000+, pages should be dedicated otherwise its a dead AI giveaway

19. Text can be smoother and more human, its a dead giveaway for AI usage as well

20. website.docx should NOT be on the repo, that will stay there forever, before starting the production, make a new repo with confidential information not committed.
